

## Operating key 1100 Nm

made of hot-dip galvanised steel

FOR OPERATING UNDERFLOOR INSTALLED VALVES

Operating key for torques up to 1100 Nm

### Connection

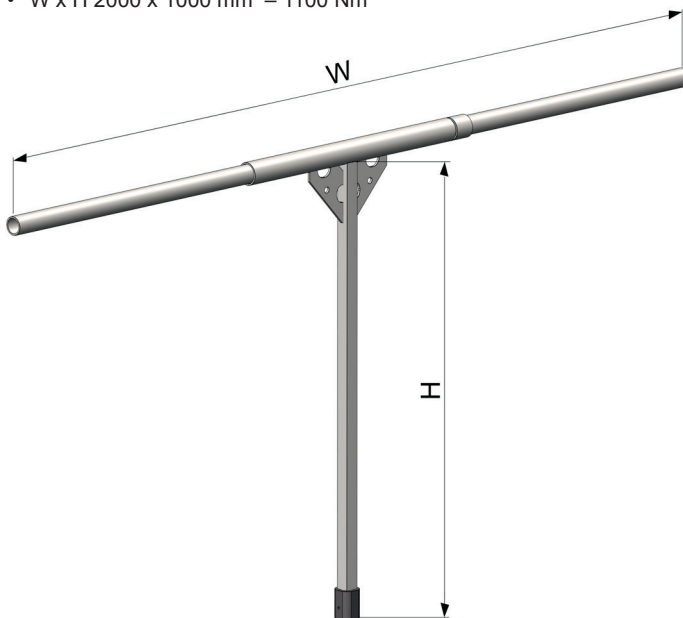

- Square 27 mm

### Material

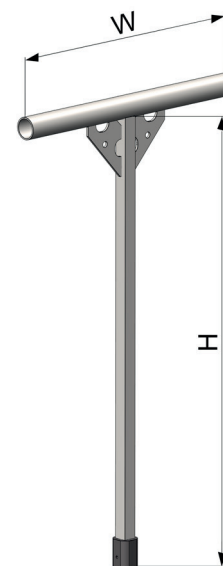

- Steel 1.0038 (S235JR/A36) hot-dip galvanised

### Dimensions and Operating torque

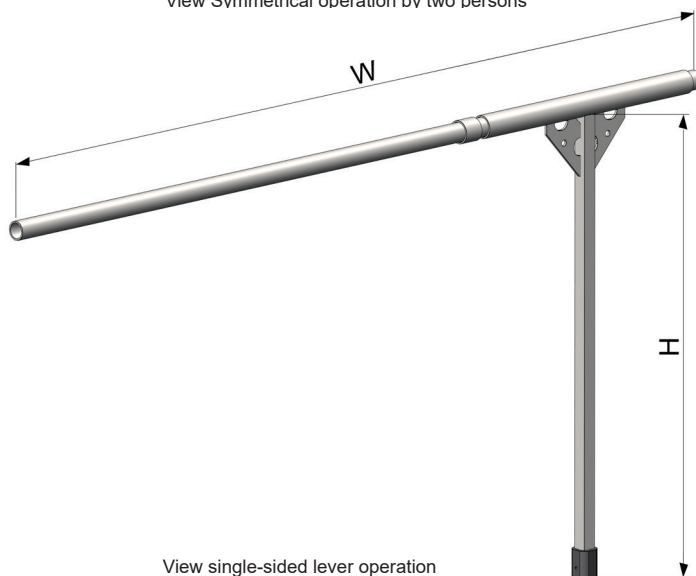

- W x H 2000 x 1000 mm – 1100 Nm

View Symmetrical operation by two persons

View Operating key without lever arm, 600 x 1000 mm

View single-sided lever operation

### YOUR ADVANTAGES

- **HIGH POWER TRANSMISSION UP TO 1100 Nm**  
For large and hard-to-operate valves
- **FLEXIBLE IN USE**  
Suitable for single-sided lever operation or symmetrical operation by two persons
- **EFFORT-SAVING OPERATION**  
Due to the variable lever extension
- **ROBUST AND PRACTICAL**  
Developed for daily use in water utilities
