

Operating key All-in-one

made of stainless steel

Operating key

- Infinitely adjustable capability for the operating height by utilising clamping bolts: 950-1300 mm
- Simplified exchange for the coupling collars by means of integrated compression springs
- Folded only 210 x 950 mm small (with coupling sleeves)
- More safety with reflective tape
- Integrated torch holder
- LEAKPEN mounting utilising a coupling collar

Torque

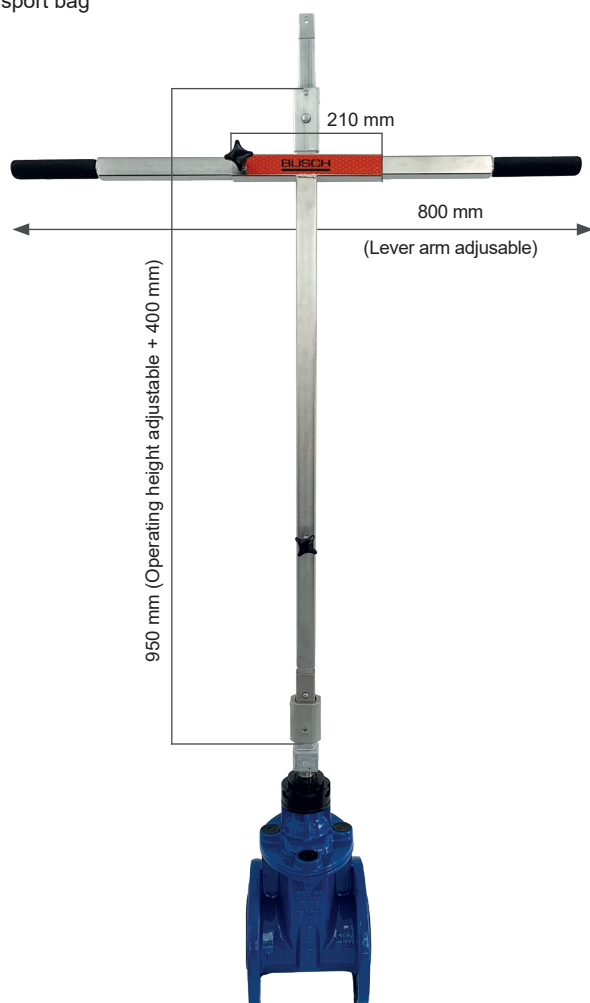

- High torque due to infinitely adjustable capability for the lever rod using an adjusting screw
- Distortion safe up to 450 Nm

Material

- Stainless steel 1.4301 (304)

Scope of delivery

- Operating key made of stainless steel
- With one standard coupling sleeve each (square 12 mm for house connection and square 27 mm for gate valve/penstock) made of stainless steel
- Transport bag

Operating key All-in-one with attached coupling sleeve square 12 mm for house connection

Integrated holder with torch

Detailed view (from left) attached coupling sleeves made of stainless steel square 12 mm for house connection and square 27 mm for gate valve/penstock

YOUR ADVANTAGES

- **FLEXIBLE USE**
Tool-free replacement of house connection to section valve coupling sleeve
- **ERGONOMIC**
Infinitely height-adjustable from 0.95 m to 1.3 m
- **HIGH POWER TRANSMISSION**
Infinitely adjustable lever arm
- **DURABILITY**
Stainless steel makes the All-in-one extremely durable and robust
